

LOCATION ASSESSMENT DOCUMENT
CIRENCESTER COLLEGE MEDIA DEPARTMENT

LOCATION MANAGER:		Lara McEvoy	
DATE / TIME OF RECCE		03/04/2024	
	Location details	40 St Georges Road, GL11 4DW, Dursley	Contingency planning: If location is to become unavailable, then filming will take place at 64 Graces Field GL5 4EN.
	Cost details	Petrol for driving there.	
	Health / safety issues	See risk assessment for more details	
	Access / legal concerns	n/a as Emily's parents own the home and have given permission for me to film there.	
	Power supply comments	There are plug sockets at the location, spare batteries for camera will be with me.	Other notes regarding the location There are pets at the locations so need to be aware of them moving around and potentially being in the way.
	Weather concerns and precautions	Filming is taking place inside so no concerns or precautions.	
	Distance comments	It's a 20–30-minute drive so need to allow time to get to location and for parking.	
	Creative justification for locations suitability	I want the interviews to feel more casual and relaxed, so filming in their homes will allow for this natural feel to come across to the audience. Along with this, the audience will be able to understand the aesthetic/vibes of the people more as they are seeing them in their bedroom, a relaxed atmosphere where they are comfortable, meaning the audience will feel more comfortable and as though they know them.
